# Work Like a Woman

350 volunteers. 65 days. One brand new home.

Since 2008, Habitat for Humanity St. Tammany West has hosted our annual Women Build project which empowers women, without excluding men, to build homes, enabling them to positively impact the lives of families and children by making home ownership a reality. Women possess all that's needed to create dramatic change in our community.

From October 14th to December 17th, a new home will be built by teams of ladies (and gentlemen!) from all backgrounds, skill levels and industries. Over the last 13 years of Women Build we've raised over 1.12 million to cover the construction costs of new homes for local families.

Together, we will build strength, stability and self reliance with our homebuyer, Jerica, who will work 350 Sweat Equity hours as her down payment on her new home. She will purchase her home through Habitat's program with a zero percent interest mortgage that will not exceed thirty percent of her income, ensuring that the home is affordable.

# 62%

of our homes have a female head of household

# 25%

of St. Tammany Parish renters spend over 50% of their income on housing when it should be less than 30%

# 57

hours a week is how much someone would have to work to afford a two bedroom apartment at the mean wage of \$12.72 in St. Tammany Parish

## Why Women Build?

"Thank you to all of the Women Build volunteers, sponsors and donors. This would not be possible without you. We are so appreciative of everyone who has sacrificed their time to help my family. Words cannot express our gratitude."

*Ami,*  
2020 WB Homeowner

Our lives have changed for the better because of everyone who was a part of Women Build 2020. My children and I thank you for everything you have done to help build our home and our future.

*Jonika,*  
2020 WB Homeowner

\*\*Volunteer dates will be held until September 30th. By that date, if sponsorship payment is not received, the hold will be released.

## Meet our Women Build Homebuyer

Jerica is a Certified Nursing Assistant and mother of three active boys, Jayden 13, Jahmir 7 and Jace 2. Their current home is a cramped two-bedroom Covington apartment housing four people with inflated rent, which it makes it difficult to stretch the budget for other necessities. Jerica is very excited for each of the boys to have their own room and gain some independence from being able to move around in a bigger space. They have been in cramped quarters for far too long. Jerica Woods is our 2021 Women Build, fueled by Chevron, home buyer.
